TRAFFIC ENGINEERING & CONTROL

INDEX TO VOLUME 14

May 1972 - April 1973

	Month	Page
A comparison between a traffic forecast and reality, J. M. Aitken and R. White	Aug.	174
A control system giving priority to trams, F. H. Mertens	March	514
A dilemma in overtaking on two-lane roads, R. Herman and T. Lam	Oct.	276
A presence and passage vehicle detector, G. F. Shannon and N. V. Chuong	Feb.	479
A public transport assignment method, F. le Clercq	June	91
Area traffic control, K. W. Huddart	July	126
Area traffic control in Glasgow under low flow conditions, D. Owens and J. Holroyd	Sept.	218
Aston expressway signing and signalling system, J. S. Wall and M. A. Burr	Dec.	370
A technical note on the OD suite, Max Mussi and M. Wheeler	Jan.	439
A traffic density meter, D. J. A. Woodley and I. W. Stewart	Jan.	440
Auto-calibration of trip distribution models, M. Batty and S. Mackie	Feb.	468
Bus priorities at traffic control signals, L. E. Richbell and B. A. Van Averbeke	June	70
Bus priority in Greater London:		
(1) The general picture, K. W. Huddart and B. L. Allen	Nov.	324
(2) Bus route studies, D. Feather, J. A. Cracknell and J. E. Beatson	Dec.	382
(3) Development of bus lane schemes, D. Feather, J. A. Cracknell and J. A. Forster	Jan.	429
(4) The implementation of bus lanes and their effect, A. E. Roberts and R. Carr	Feb.	482
(5) Assessment of alternative bus priority strategies for Inner London, C. M. Buchanan and R. D. Coombe	March	522
(6) Bus bunching and regularity of service, K. W. Huddart	April	592
Bus rapid transit, G. R. Niblett	July	130
Capacity of merging areas on urban motorways, M. R. Berresford and P. A. Seddon	June	76
Car parking for the disabled, H. R. du Sautoy	Nov.	346
Centre for Traffic Studies, University College London Progress Report 1972, R. J. Smeed	Feb.	491
COBA a computer program for the economic assessment of road schemes, G. A. C. Searle	Dec.	376
COMPACT networks for Brighton structure plan, J. V. Douglas and A. C. Hall	Sept.	232
Comparison of the pattern of accident rates on roads of different countries, V. V. Silyanov	Jan.	432
Computer control of road traffic at a tunnel entrance, D. W. Honey	April	568
Conference reports:		
ICE conference, London, April 18-21 Report by W. Fisher Cassie	May	33
Transpo '72	July	135
Contour maps of travel demand, L. J. S. Lesley	July	115
Courses in traffic and transportation	Aug.	184
Demand-responsive buses: progress and prospects, C. C. Kissling	July	132
Dublin transportation study, G. C. McIlraith	Aug.	178
Estimating traffic speeds from flows observed at the ends of a road link, C. C. Wright, T. Hyde, P. J. Holland and B. J. Jackson	Feb.	472
Estimation of peak-hour flows on urban roads, M. Agnew and D. McCallum	July	122
European experience with planning for recreational traffic, J. C. Miles and W. Houghton-Evans	Dec.	392
Factors in town planning, K. Liebbrand	Jan.	424
Further studies in recreational trip generation:		
(1) Parking incidence in the countryside, J. R. Duffell	Sept.	239
(2) Recreational indices of use – meteorological factors, J. R. Duffell	Oct.	285
Gravity model calibration by matrix formulation, J. F. Morrall	Aug.	182
Ground travel characteristics at a regional airport, J. F. Harbidge	Jan.	442
Hammersmith Transportation Study, G. L. Stephens	March	529
High pressure sodium lamps in the City of London, B. R. Austin	April	590
Improved traffic flow by means of automation, G. Heymann	May	29
Instrumentation for the study of traffic behaviour at motorway interchanges, L. W. Ackroyd and A. J. Madden	Feb.	476
Lane-direction traffic signal control:		
(1) The system along the Heerstrasse, G. Habermann and J. Schönleiter	May	24
(2) Before-and-after study, P. Burmeister	May	26
Lighting and road traffic:		
(1) Public lighting and road accidents, P. R. Cornwell and G. M. Mackay	July	132
(2) Highway capacity, vehicle speeds and public lighting, P. R. Cornwell and G. M. Mackay	Oct.	297
(3) Requirements for traffic route lighting, P. R. Cornwell and G. M. Mackay	Nov.	344
Minibus and Dial-a-ride: Initial experiences with the Abingdon experiment, R. Slevin and A. E. Cooper	April	586
Minicomputers in network traffic control, H. I. Herstein, H. N. Yagoda and J. M. Orman	May	36
Motorway surveillance and control, K. Moscowitz	March	526
Moving pedestrians in a traffic-free environment, R. Barrett	Sept.	235
Multiflow multiple routeing procedure, P. R. Mason	Oct.	280
New transportation policy for city of Nottingham	Nov.	348
Passenger transport interchanges – theory and practice on Merseyside, C. Millward, A. H. Coleman and J. E. Dunford	April	575
Planning and evaluation of different types of road network for urban areas, P. F. Stott	Nov.	339
Priority routes for fire appliances, D. W. Honey	Aug.	166
Probabilistic aspects of safety in traffic flow, J. E. Tolle	Feb.	489
Progress report on New York City's traffic control system, E. Vinson Hoddinott	Sept.	221
Putting a spoke in for bicycles – an aspect of the Cambridge Transportation Plan, G. B. Parker	Sept.	242
Recreation trip attraction, S. L. Edwards and C. A. Vinden	March	519 -
Road Research 1971	Oct.	294
Roadside interviewing on motorways, T. Wiklund and L. Forsells	Aug.	168
Short-term urban transport planning, K. W. Rowe	June	84
Some characteristics of rail and air passengers on domestic inter-city routes in Great Britain, G. R. Leake	April	581
Some characteristics of the London road network, P. Liivamagi and R. J. Vaughan	Nov.	333
Staggered work hours, W. I. Goodman	Oct.	283
Staggered work hours in Manhattan, B. O'Malley and C. S. Selinger	Jan.	418
Starting performance of queues at unsignalised T-junctions, P. H. Bendtsen	Sept.	214
Stockton and Thornaby traffic management scheme, J. T. Ratcliffe and S. G. Hurst	July	119
Synthesising networks, L. J. S. Lesley	Nov.	327

	Month	Page
Technological progress in motorist aid communications, W. S. Wainwright and R. Jain	Oct.	289
The application of multiflow assignment to major traffic studies in a rural area, J. A. Brooks and M. R. Harris	Nov.	330
The collection and analysis of automatic traffic counter data, L. P. Kirwan and S. L. Smith	Jan.	436
The edge of the carriageway, C. A. O'Flaherty	June	82
The evaluation of visual intrusion in transport situations, R. G. Hopkinson	Dec.	387
The inclusion of environmental factors in urban transport planning, J. H. Rees	June	80
The United States urban mass transit programme, C. C. Villarreal	May	16
The visual acceptability of rapid transit systems in the urban environment, R. J. Hawkes	July	127
Traffic characteristics as a function of the distance to the town centre, R. J. Vaughan, A. Ioannou and R. Phylactou	Sept.	224
Traffic generated by industrial premises in London, B. G. Redding	Aug.	170
Traffic performance evaluation of road networks by the α relationship, Y. Zahavi Part 1	Sept.	228
Part 2	Oct.	292
Transport planning and structure planning, T. A. Broadbent and I. H. Mackinder	March	536
Transport research by SRC grant:		
University of Leeds, Institute for Transport Studies, P. J. Hills	March	539
University of Newcastle upon Tyne, Transport Operation Research Group, R. E. Allsop	March	541
Cranfield Institute of Technology, Centre for Transport Studies, J. M. Clark	March	543
Loughborough University of Technology, Transport Technology Assessment Centre, N. Ashford	March	545
University of Liverpool, Marine Transport Centre, S. Gilman	March	547
Tyneside rapid transit, T. M. Ridley	Feb.	486
VODAR: Some aspects of the home interview study, M. G. Richards, B. E. M. Verberne and G. L. S. Willemse	May	19
